

Environmental Policy

vedanta

Copper Mines of Tasmania is committed to the principals of sustainable development and the effective management and protection of our environment.

Copper Mines of Tasmania will:

- **Implement continual improvement in all of our activities.**
- **Implement Best Practice Environmental Management.**
- **Liaise with stakeholders in developing solutions to environmental issues.**
- **Integrate environmental considerations into operations and planning so as to minimise the impact of our activities.**
- **Implement responsible resource utilisation and recycling practices.**
- **Rehabilitate areas affected by our activities.**
- **Promote environmental awareness in our employees, contractors and the community.**
- **Maintain a formal program of communication and consultation.**
- **Regularly set and review environmental objectives and targets.**
- **Conduct regular reviews of our environmental management system.**
- **Report our environmental performance through annual public reports.**

Utilising the principals of continual improvement, Copper Mines of Tasmania will strive to:

- **Comply with the requirements of all relevant environmental laws, regulations, licence and permit conditions.**
- **Prevent pollution of the environment from our activities.**
