

Health and Safety Policy

vedanta

Copper Mines of Tasmania is committed to providing a safe and productive working environment in which the highest standards of Occupational Health and Safety are maintained.

CMT believe that every person on the mine site has the right to a safe working environment and that productivity will be maximised only when all risks to persons or property are managed effectively. A safe and healthy working environment is a collective responsibility requiring the commitment of all persons on site to ensure a successful outcome. Everyone is expected and empowered to stop unsafe work until safety can be assured.

CMT is committed to the principles of sustainable development, demonstrated through the Safety Management System which provides as a minimum:

- **Safe systems of work**
- **Safe plant and equipment**
- **Commitment to the health of all people**
- **An informed, trained and educated work force**
- **Effective communication and consultation**
- **Effective emergency response personnel**
- **Effective hazard identification and risk management**
- **Comprehensive incident and investigation process**
- **Compliance with relevant legislation**
- **Continuous review of our safety performance**

Everyone at CMT is a safety leader! This requires commitment by each employee who must understand that what they allow, they approve.
